Upcoming Schedule for CPR/First Aid/AED & Pediatric Classes

July 25th 9am

July 27th 6pm

August 17th 6pm

August 22nd 9am

August 24th 6pm

Classes are being scheduled and removed at a quick rate. We have limited availability due to the CoVid-19 virus and precautions that are in place. Schedule is subject to change if the virus spikes and the facility closes.

We strongly urge the public to use the Online Blended Learning option. This has been in use for years and is accepted by the State of Idaho and other agencies. Our version is an online portion that is completed and then you schedule a time to work with an instructor one-on-one to have a Skills Practice Session. You cannot be certified until the Skills Practice has been completed. There are many online “providers” that do not require Skills Practice by a Certified Instructor, they are not valid or accepted by most agencies.

Keyes To Safety LLC is a Training Center for the American Safety & Health Institute and also approved BLS Instructors/TC Faculty for the American Heart Association. Both agencies offer online and Skills Practice options at variable prices. Click the link on the Keyes To Safety Home Page for Blended Learning to see the options.

We appreciate your support and watch for additions to the schedule as they become available!

Regards,

-Keyes To Safety Staff
